SECTION 01

Brand Overview

Who we are

Forward Support Care Ltd is a CQC registered residential care provider based in Taunton, Somerset. We trade as Catherine House, a five bed residential home for adults with learning disabilities at 131 Hamilton Road, Taunton, TA1 2EP.

Our positioning

> **Catherine House is the home in Taunton where people are genuinely known, not just supported.**
>
> This is locked. Every piece of content reinforces this positioning.

We are known for

- Real relationships
- Consistency
- Warmth
- A home environment with genuine human connection
- A culture where laughter is part of everyday life

We stand for

- Kindness
- Doing the small things properly
- Taking time to know people properly

We stand against

- Tick-box care
- High staff turnover
- Cold, clinical environments
- People being treated like a task or a name on a rota

Our tagline

"Care and support you can believe in."

SECTION 02

Our Logo

Primary mark

The Forward Support logo combines the arrow motif with the company name. It must always be reproduced from the approved artwork files. Never recreate, redraw, or synthesise the logo in any form.

Primary logo: blue on white / light backgrounds

Logo variants

Primary (blue on white)

For all standard uses on white or light backgrounds.

Reversed (white on dark)

For document covers, section dividers, dark hero sections on the website.

Clear space

Maintain minimum clear space around the logo equal to the height of the letter "F" in FORWARD. No text, graphics, or page edges should encroach into this space.

Minimum size

The logo must not be reproduced smaller than 25mm wide in print or 100px wide on screen.

Never do this

- Never stretch, distort, or rotate the logo
- Never change the logo colours
- Never place the logo on a busy or patterned background
- Never add effects (shadows, gradients, outlines)
- Never recreate the logo in code, SVG, ASCII, or any other method
- Never crop or partially obscure the logo

SECTION 03

Colour Palette

These are the definitive colour values for Forward Support Care Ltd. Use only these values. When in doubt, use Forward Support Blue and Forward Support Dark.

Forward Support Blue
HEX: #004DB5
RGB: 0, 77, 181
CMYK: 100, 57, 0, 29

Forward Support Orange
HEX: #E8720A
RGB: 232, 114, 10
CMYK: 0, 51, 96, 9

Forward Support Cyan
HEX: #00B5CF
RGB: 0, 181, 207
CMYK: 100, 13, 0, 19

Forward Support Grey
HEX: #706F6F
RGB: 112, 111, 111
CMYK: 0, 1, 1, 56

Forward Support Dark
HEX: #060D22
RGB: 6, 13, 34
CMYK: 82, 62, 0, 87
Dark backgrounds (covers, dividers), primary text on white.

Background Tint
HEX: #F5F7FB
RGB: 245, 247, 251
CMYK: 2, 2, 0, 2
Light background panels, alternating table rows, subtle contrast.

SECTION 04

Typography

Different contexts require different fonts due to licensing, availability, and rendering. The table below specifies exactly which font to use where.

Context	Primary Font	Fallback	Notes
Website	Figtree	System sans-serif	Google Font, loaded via Next.js.
Print documents	Effra	Inter	Effra is commercial. Inter is the closest free alternative.
PDFs (generated)	Helvetica	Arial	Universally available, guaranteed to render.
Email signatures	Arial	Helvetica	Safe across all email clients.
Presentations	Inter	Arial	For internal or external slide decks.

Type scale

Page title	28pt | Bold | Dark or White
Section heading	18pt | Bold | Dark
Subheading	14pt | Bold | Dark
Body text	10-11pt | Regular | Dark or Grey
Caption / footer	8pt | Regular | Grey
Eyebrow / label	10pt | Regular, uppercase, letterspaced | Cyan or Orange

Typography rules

- Never use more than two font weights on a single page (Regular and Bold).
- Never use decorative, script, or novelty fonts anywhere.
- Body text line height: 140-150% of font size.
- No em dashes. House style. Use commas, full stops, or sentence breaks.

SECTION 05

Photography & Imagery

Photography is one of the most powerful tools for demonstrating that Catherine House is a real home with real people. Every image should pass the test: does this look like somewhere you would want your loved one to live?

On-brand photography

- Natural light wherever possible. No flash.
- Real moments, not staged poses. Someone laughing at lunch, a walk in the garden, a birthday.
- Warm colour temperature. Catherine House should feel warm and inviting.
- People doing things, not sitting still for the camera.
- The building: front of house, garden, communal areas, kitchen.
- Subtle use of colour and light that reflects the brand colour palette.
- Always get written consent before photographing residents or staff.

Photography mask

The Forward Support arrow icon can be used as a clipping mask on photographs, creating a distinctive visual treatment. The photograph shows through the arrow shape, producing an immediately recognisable brand element.

This treatment works well on website hero sections, social media profile and cover images, printed promotional materials, and presentation title slides. Two variants exist: a full-colour treatment for vibrant imagery, and a lighter, more subtle version for softer contexts.

Iconography

When icons are used (website, documents, presentations), use Lucide icons in Forward Support Blue or Grey. Keep icons simple, outline style, consistent weight. Never mix icon sets. Never use emoji in formal outputs.

Never use

- Stock photography. Ever. It is immediately obvious and destroys trust.
- Clinical or institutional imagery (hospital corridors, medical equipment).
- Photos that identify residents without explicit written consent.
- Low quality, blurry, or poorly lit images.
- AI-generated images of people or places.

SECTION 06

Tone of Voice

Our voice is how we sound in writing. It should be consistent whether Laura is writing an email to a family, Andy is drafting a commissioner response, or a blog post is going on the website.

We sound like

- A real person, not a corporate machine.
- Warm but not soft. Confident but not arrogant.
- Conversational and natural, as if talking over a cup of tea.
- Short, punchy sentences when making a point.
- Light humour where it falls naturally, never forced.

We never sound like

- An AI. If it reads like ChatGPT wrote it, rewrite it.
- A local authority report. No jargon, no acronyms without explanation.
- A sales pitch. We earn trust through reality, not claims.
- Generic. If it could describe any care home, it is not good enough.
- Emotionally manipulative. No guilt, no pressure, no manufactured urgency.

Voice by document type

Family welcome letter: Warm, personal, reassuring. Written as Laura.

Commissioner proposal: Professional, evidence-led, factual. Written as Forward Support.

CQC notification: Formal, factual, precise. No flourish.

Blog post: Punchy, direct, answers real questions. They Ask, You Answer method.

Social media: Casual, real, shows daily life. Not corporate.

Recruitment: Honest, specific, speaks to the right people.

Approved email sign-offs

Use the appropriate closing for the audience. Keep it consistent across the team.

Families and loved ones: Warm wishes, [Name]. Or: With best wishes, [Name].

Commissioners and social workers: Kind regards, [Name]. Or: Best regards, [Name].

CQC and regulatory bodies:
Internal (staff):
Recruitment enquiries:

SECTION 07

Verified Facts & Legal

These are the verified facts for Forward Support Care Ltd. All factual claims in any document, website, or marketing material must match these values. If anything feels out of date, reverify at primary source before publishing.

Company details

Registered name	Forward Support Care Ltd
Company number	12330119
Incorporated	25 November 2019
Registered office (legal only)	Homestead Green Lane, Poundisford, Taunton, TA3 7AG
Trading address (public use)	Catherine House, 131 Hamilton Road, Taunton, TA1 2EP
Phone	01823 630750
Email	info@forwardsupport.co.uk
VAT	Not registered

Regulatory

CQC Provider ID	1-8336100647
CQC Location ID	1-18578774379
Registered Manager	Ms Laura Ami Luxon
Nominated Individual	Miss Alison Elizabeth Thorne (NEVER publish publicly)
Maximum service users	5
Registered specialisms	Learning disabilities, Sensory impairments, Younger adults
Legal restriction	May NOT provide nursing care
ICO registration	ZB808447 (expires 31 October 2026)

CQC rating: approved wording

> **The only approved public wording:**
>
> "Catherine House was rated Good by the Care Quality Commission at its last full inspection. Forward Support Care Ltd became the registered provider in 2024 and our first inspection under the new registration is pending."

Do not claim the Good rating belongs to Forward Support Care Ltd. Do not cite a June 2024 inspection date. Do not state "CQC Rated Good" without the full context. This is the single most sensitive claim on any public material.

SECTION 08

People & Public Faces

Who can be named publicly and who cannot. This is a hard rule, not a preference.

Public faces (named openly)

Andy Reader. Shareholder, strategic lead, marketing and digital lead. Named on the website, in marketing material, in press, and in commissioner correspondence.

Laura Ami Luxon. Registered Manager. The public face of Catherine House. Named on the website, in marketing, in day-to-day commissioner and family contact. Laura knows every resident, family member and staff member by name, and her presence in content should reflect that personal operational role.

Never named publicly

> **Alison Elizabeth Thorne (Ali)**
>
> Nominated Individual on the CQC registration. Super Admin internally.
>
> Not on the website. Not on marketing. Not on social media. Not in press. No exceptions.

Ali exists on CQC records as legally required, and nowhere publicly beyond that.

Other staff

Debbie (Senior team member) may be named in internal contexts. Not currently on public facing content unless Andy specifies otherwise. Other staff are referred to generally, not individually, unless Andy gives explicit instruction.

SECTION 09

Stationery & Print

Every printed item must look like it belongs to the same family. The consistent elements are: blue logo top-left in a clean header with white space, a thin orange accent line above the footer, and centred contact details below. Visual previews of each item follow the specifications.

Letterhead

A4 portrait. Logo top-left with generous white space. No stripes, no rules in the header. Footer: thin orange line, then centred: address, phone, email, website, company name and number in lighter grey.

Continuation sheet

A4. Smaller logo top-left, "Page 2" top-right. Same footer as letterhead.

Compliment slip

210 x 99mm (one-third A4). Logo top-left. "With compliments" in blue. Thin orange line above centred contact details at bottom.

Memo template

A4. Logo top-left. "MEMORANDUM" in blue letterspaced text. Thin orange line below. To/From/Date/Subject grid with light grey underlines. "Internal and Confidential" centred. Same thin orange line footer.

Business card

85 x 55mm. Front: logo, name, title, thin orange line, phone, email, website. Back: dark navy background, white logo centred, tagline in cyan, thin orange line, address.

Email signatures

HTML format (4 signatures: Alison Thorne, Nominated Individual; Andy Reader, Director; Laura Luxon, Registered Manager; Debbie Matthews, Senior). Name in blue, title in grey, thin orange line, T/E/W contact details, company and address in lighter grey. Arial font for email safety. Same phone number for all (01823 630750). Individual email addresses.

Print specifications

Letterhead paper: 120gsm uncoated white. Print in-house or via commercial litho for large runs.

Business cards: 400gsm silk with spot UV on the logo (back only). Order from Printed.com, Moo, or local printer.

Compliment slips: 120gsm uncoated, same stock as letterhead for consistency.

Envelopes: Standard DL (110 x 220mm) and C5 (162 x 229mm). White, unprinted. Use address labels or handwrite.

Document printing: Internal documents printed on standard 80gsm white. Induction packs on 100gsm for durability.

SECTION 10

Digital Standards

Website

- Built in Next.js App Router, hosted on Vercel, code in GitHub (andyreader16-debug/Forward-Support-Website).
- Font: Figtree (loaded via Next.js). Never use a CDN link.
- Brand colour tokens defined as CSS custom properties. Never hardcode hex values.
- Dark navy hero sections with white text. White content sections with dark text.
- Orange accent used as thin lines (2px borders), not thick bars. Consistent with stationery. Footer: brand strap with tagline, address, phone, email, "Powered by Hive" badge.
- Custom meta title and description on every page. Format: [Keyword] | Forward Support Care.
- CQC wording must always use the approved text from Section 07.

Analytics

- Google Analytics 4: Measurement ID G-19MY7BYNYJ.
- Microsoft Clarity: Project ID to be confirmed.
- Google Search Console: verified under info@forwardsupport.co.uk.
- Vercel Analytics: enabled (cookieless, no consent banner needed).
- All analytics access restricted to Andy only. Reports shared in summarised form.

Social media

Strategy coming later. When active: use primary logo as profile image. Cover image to feature Catherine House photography (real, not stock). Same voice as the website. No emoji in posts unless genuinely natural.

Google Business Profile

Complete 100% of the profile. Minimum 20 real photos. Respond to every review within one week. Use the trading address (131 Hamilton Road), not the registered office.

SECTION 11

Document Standards

All Forward Support documents follow a three-page template system. The master template (FSC_Master_Document_Template) is the definitive reference.

Cover page

Dark navy (#060D22) background. Orange top stripe (8mm). White logo top-left. Eyebrow text in cyan (uppercase, letterspaced). Large white title with one key word in cyan. Italic description in muted white. Tagline in cyan bottom-left. Contact block bottom-right.

Section divider

Dark navy background. Orange top stripe. Small white logo. Collection reference as cyan eyebrow. Collection title large in white. Short description in muted white italic. No contact block.

Content / form page

White background. Small blue logo top-left. Document reference top-right. Thin blue rule below header. Clean readable body text. Footer: page number centred, company name left, document version right.

Document numbering

All documents follow the collection system from the Document Standards and Portal Scope v1.0. Collections A through H, each numbered sequentially (e.g. A.01, B.03, C.15). This numbering appears in the header of every content page.

SECTION 12

Systems of Record

Each system does one job. Do not duplicate, re-host, or try to replace content that lives in these systems. If someone asks for a policy, point them to QCS. If someone asks about a care plan, point them to Log My Care.

Do not duplicate

Log My Care

Care planning, resident records, daily notes, clinical and support planning. This is the care record. Nothing else replaces it.

Bright HR

HR, staff files, training records, certificates, absence management. Peninsula and Health Assured EAP are accessed through Bright HR.

QCS (Quality Compliance Systems)

The 250+ policies library, full compliance suite, regulatory content. All policies live here. Do not write policies in Word. Do not recreate policy content outside QCS.

Supporting services

Peninsula HR and employment law advice. Partnered since 2011.

Health Assured Staff employee assistance programme. Provided via Peninsula.

Skills for Care Registered provider. Workforce development.

Hive CRM Marketing contact management, enquiry tracking.

Resend Transactional email delivery for website enquiry form.

What the Brand Book covers

- Brand guidelines, voice, visual identity
- SOPs written internally for Forward Support
- Templates for letters, emails, memos, notifications
- Family, social worker, and commissioner facing documents
- Marketing content (website, blog, social, newsletters)
- Governance, planning, strategic thinking

What the Brand Book does NOT cover

- Policies (those are QCS, always)
- Care plans (those are Log My Care, always)

SECTION 13

Where Everything Lives

There are four places things live. Each has a clear purpose. If you are unsure where to save something, check this page.

1. Claude Project (reference library)

The project files panel in the Claude interface. Permanent reference documents that every chat reads automatically. Upload the Brand Book, logo files, master template, portal scope doc, and key standards here. These are read-only. Chats can read them but cannot change them. Think of this as the filing cabinet.

- Brand Book (this document)
- Logo files (blue and white variants)
- Master document template
- Document Standards and Portal Scope v1.0
- Brand Technical and Marketing Standards
- Marketing Content MASTER prompt
- Key QCS policies for AI reference

2. Individual Claude chats (workbench)

Each chat produces outputs (documents, PDFs, code). Those outputs live inside that chat only. Other chats cannot see them. Download anything you want to keep. When a chat produces a reference document that future chats need, upload it to the project files.

3. GitHub (website code)

The website code lives in GitHub (andyreader16-debug/Forward-Support-Website). Pushing changes to main automatically deploys to Vercel. This is the single place the code lives.

4. Your computer (permanent filing)

When a chat produces something you want to keep, download it and save it locally. Organise into the folder structure below. This is your permanent record.

Recommended computer folder structure

```
Forward Support Master Files/
    Brand/
        Brand Book (this PDF)
        Logo files (blue, white, SVG)
        Brand World Guidelines (archive)
    Stationery/
        Letterhead template (Word)
        Business cards (print-ready PDFs)
        Compliment slip, continuation sheet, memo
        Email signatures (HTML)
    Document Templates/
```

```
    Master template (cover, divider, content page)
    Correspondence templates (letters, emails, notifications)
Finished Documents/
    Family Guide
    Placement Information Pack
    Social Worker Guide
    Induction packs (when built)
    Statement of Purpose
Website/
    Screenshots, previews, launch pack
Research/
    Supported Living market research
    Any other reference material
```

When the staff portal goes live, this same structure moves into the document library with three-tier permissions: Super Admin (Andy and Ali), Manager (Laura), and Read-only (other staff).

SECTION 14

Version Control

This Brand Book is a living document. When brand decisions change, this book is updated first. Everything else follows from it.

How changes work

- Any brand change is agreed with Andy first.
- The change is made in this Brand Book. New version number issued.
- Updated Brand Book uploaded to the Claude Project as a project file.
- Updated Brand Book uploaded to the staff portal document library.
- All future outputs follow the new version.
- Existing materials updated on priority: website first, then active documents, then archive.

Version history

Version	Date	Changes
1.0	28 April 2026	Initial release. All sections consolidated.

Outstanding items

- White-on-dark logo variant needed for covers and dividers.
- Pantone reference to be confirmed in Stationery Standards v1.2.
- Brand audit: reconciliation between Guidelines PDF and live artwork.
- Microsoft Clarity project ID to be confirmed.

> **If it carries our name, it follows this book.**
>
> Questions? Contact Andy Reader or refer to the project instructions.
