What we stand for

Catherine House is built around one idea: people with learning disabilities deserve to be genuinely known, not just managed. That shapes everything, from how we recruit to how we plan each person's day.

We stand for

- Consistent staff who know each resident by name, preference, and history
- Person-centred support plans built around what each individual actually wants
- Low staff turnover, because consistency matters more than any policy
- Honest communication with families and commissioners, always
- A home that feels like a home, not a facility

> We do not overmedicate, use restrictive practice as a default, accept placements we cannot support well, or give families and commissioners the runaround.

Staffing and training

Staffing model	24-hour waking support, minimum two staff on shift
Staff training	Mandatory training plus specialism modules
Policy framework	QCS (Quality Compliance Systems) 250+ policy library
Safer recruitment	Enhanced DBS, reference checks, Peninsula HR
HR partner	Peninsula, in partnership since 2011

Referral criteria and suitability

We only accept placements where we are confident we can provide genuinely good support. We would rather be honest at referral stage than let someone down later.

We are a strong match for

- Adults aged 18 and over with a primary diagnosis of learning disability
- Individuals who benefit from consistent routine and familiar staff
- People transitioning from other residential settings or family care
- Adults with associated sensory impairments or younger adults under 65
- Placements funded by Somerset County Council, NHS Somerset ICB, or self-funded

We are not registered to provide nursing care and do not accept placements where the primary diagnosis is mental health without learning disability, or placements requiring secure provision.

Not sure if we are the right fit? Call Laura on 01823 630750. We will give you an honest answer.

Six steps from first contact to move-in

1 **Initial contact**
